

The following is a testimonial from a first-year ACP member on the value of the ACPEF Postgraduate Student Support Program:

As a student member I was active in participating in the annual ACP sessions in Scottsdale, AZ and Nashville, TN and presented table clinics at both sessions. I had the brief opportunity to enjoy the San Diego meeting but was inundated preparing for the Section C of the American Board of Prosthodontics. I have utilized the ACP website extensively for both employment opportunities and professional material. As you can imagine I greatly value my relationship and membership with the ACP, including the ACPEF Postgraduate Student Support Program.

Sincerely,
Dr. Derek Soden
