**The History of Innovation**

Andy Masich is President and CEO of the Senator John Heinz History Center, a Smithsonian Institution affiliate and the largest history museum in Pennsylvania. He is a former Chairman of the PA Historical and Museum Commission, an award winning book author and Emmy-winning

documentarian and serves as an expert for a variety of national media including the Associated Press, The New York Times, Travel Channel, and The History Channel.

**Using Digital Denture Technology for Much More Than Just Dentures**

**Stephen F. Balshi, MBE**, is President of CM Prosthetics Inc., a dental laboratory that focuses on the rehabilitation of the fully edentulous, utilizing state-of-the-art CAD/CAM technology. He is also the Director of Research at PI Dental Center at the Institute for Facial Esthetics.

The dental community has been exposed to digital technology for decades, but only recently has it really impacted removable prosthodontics.

**LEARNING OBJECTIVES**

- Understand the workflow differences of digital denture technology and traditional denture fabrication.
- The benefits of digital denture technology and why it is the preferred pathway to success.
- See some trick that minimize the learning curve for digital denture applications.
- Illustrate the technology-enabled workflow through patient examples in various applications.

**Implant Overdentures**

**Thomas J. O'Donnell**

President of Rochester Technical Group, Inc., began working in the dental industry in 1979 managing a 3-person denture dept. and, with his partners, has built a successful and innovative dental lab with 95 employees.

**LEARNING OBJECTIVES**

- Learn about Conus, Locators, & VCI implant overdentures.
- Review patient-specific abutments, hybrids, and removable implant supported techniques.
- Explore a removeable implant solution that provides reliable restorations utilizing the latest technology for a reasonable and consistent price.
- Implant overdentures for patients who desire a more stable prosthesis that improves retention, function, and speech.

**Holly Vullo**

Implant Specialist at RTG Dental Laboratory who developed the industry handbook "Implant Dentistry for Dummies". An implant dentistry patient herself who has clinically assisted hundreds of clients.

**Toftrees Golf Resort**

1 Country Club Lane, State College, PA 16803 • www.toftrees.com

Combine business with pleasure at Toftrees Resort nestled within the secluded pine trees of Central Pennsylvania. Relax outside and enjoy the peaceful surroundings of the resort in one of our many rooms with private patios and balconies.
