

This is Your Specialty. Past, Present, and Future

This is our Illinois section bi-annual meeting of the American College of Prosthodontists. Our specialty has grown tremendously and Prosthodontics is now at the heart of dental practice, education, and scientific research. How did we start? Where do we stand today as Prosthodontists in our community? And how must our specialty develop its leadership role in dentistry? Dr. Campbell will speak about the past, the present and the future of our specialty.

Presented by: **Dr. Stephen Campbell**

Stephen Campbell, DDS, MMSc

Dr. Campbell is THE professor at the Dept. of Restorative Dentistry at University of Illinois at Chicago and has extensive clinical experience, having spent most of his time providing patient care. He has been active in dental research throughout his career, having been the principal investigator for several NIH grants dealing with ceramics. He is past-president of American College of Prosthodontists, past-president of American board of Prosthodontics and he held numerous awards and made significant contributions to Speciality in Prosthodontics.
