

Prosthodontic Review Course

ATLANTA

SEPT. 8-9, 2017

AMERICAN COLLEGE OF
PROSTHODONTISTS
Your smile. Our specialty.®

Course Overview

This two-day course is designed to reinforce treatment approaches that meet esthetic and functional goals expected by patients and clinicians. Speakers will illustrate key concepts based on evidence and interweave diagnosis, planning, and treatment to achieve the objectives established for each patient.

At the conclusion of this course, participants will be able to:

- Recognize and apply the principles of comprehensive prosthodontic treatment for completely edentulous, partially edentulous, and dentate patients.
- Discuss both traditional and innovative methods and materials for fixed, removable, and implant prosthodontics.
- Understand the current applications and future direction of advanced digital technology in patient care.
- Appreciate the reported longevity, maintenance, and complications associated with therapies in fixed, removable, and implant prosthodontics.
- Avoid implant complications, particularly related to esthetics, and improve understanding of related concepts such as osseous and soft tissue volume.

Who Should Attend?

This course is intended for practitioners who would like to stay up to date on the latest trends as well as prosthodontists who want to become board-certified, residents who are taking the board exam, and dental professionals who are interested in the specialty.

Continuing Education Credit

This course has been approved for 15 credit hours.
