

47TH ANNUAL SESSION  
NOV 1-4 • SAN FRANCISCO

**Corporate-Sponsored Symposia**

Saturday, Nov. 4, 2017

9:00 a.m. – 12:00 p.m.

**3 CE**

*No advance registration is necessary.*

**Ivoclar Vivadent**

**Dental Ceramics in a Digital Era**

*Edward A. McLaren, DDS*

*Jonathan L. Ferencz, DDS, FACP*

*Lee Culp, CDT*

The number of all-ceramic restorations fabricated has increased significantly in recent years. Both the advancement in ceramic technology and the integration of digital technologies has accelerated the use of these materials. Current digital technologies affect both laboratory and clinical procedures along with dentist/technician communication. Understanding the material properties along with clinical and laboratory workflow are extremely important for long-term clinical success. In this symposium, the material science of new materials and integration of digital workflows in both clinical and laboratory settings will be presented.

At the conclusion of these sessions, attendees should be able to:

- Recognize material properties for clinical integration.
- Increase knowledge of advanced technologies available to dental technicians.
- Identify office and laboratory workflow strategies related to digital technologies.
