

ACP2015

PROSTHODONTICS

45TH ANNUAL SESSION • OCT. 21-24 • ORLANDO

Corporate Partner Symposia

October 24, 2015
9:00 a.m. – 12:00 p.m.
3 CE

Each session is hosted by a corporate partner of the ACP. Attend one to earn CE credit. No advance registration is necessary.

Ivoclar Vivadent **Crystal Ballroom AB**

Digital Denture Technology

Frank R. Lauciello, DDS, FACP
William Barton, CDT
Don Yancey, CDT

Utilize digital technology to create high precision functional results for removable prosthodontics. See how the latest innovation allows for the translation of analog data into a comprehensive workflow for CAD/CAM produced complete dentures. Learn specifically how the UTS CAD® and the Gnathometer CAD® assist in the transfer of the critical clinical information necessary to produce high quality digitally produced dentures.

At the conclusion of this session, attendees should be able to:

- Discuss the advantages of a laboratory based CAD/CAM digital denture system for removable prosthodontics.
- Describe new clinical techniques to facilitate the communication of patient data utilizing the UTS CAD® and the Gnathometer CAD®.
- Explore the many potential clinical workflow options that are available for the Ivoclar Vivadent Digital Denture system.
