**Dr. Edward M. Amet Honored with Private Practice Award for the Central Region 3
by the American College of Prosthodontists**

CHICAGO — [Edward M. Amet, DMD, MSD, FACP](#), was honored with the Private Practice Award for the Central region 3 by the American College of Prosthodontists (ACP). Dr. Amet was honored at ACP's Annual Awards & President's Dinner held during its 44th Annual Session in New Orleans, Nov. 5-8.

Dr. Amet, of Overland Park, Kan., is an accomplished clinician known for his dedication and expertise in the specialty of prosthodontics. "I know of no one else who deals so deftly with so little bone. It is great to refer 'impossible' cases and get 'miracles' every time," said Dr. Charles Kincaid, a general dentist.

Dr. Amet's ability to consistently deliver improved patient outcomes is a truly valued asset. "The work he did is beautiful and looks natural. The overall structure of the denture was the perfect aesthetic solution," said patient Catherine Anderson.

Created in 2013, the Private Practice Award may be given annually to up to five individual prosthodontists (one per ACP Region). These individuals must have made outstanding contributions to the advancement of the prosthodontic specialty and the role that the prosthodontist in private practice plays in advancing the patient's quality of life.

Prosthodontists are specialized dentists with advanced training in oral health issues, who are committed to improving patient outcomes. From implants, crowns, veneers and tooth whitening, to full-mouth reconstruction, prosthodontists specialize in [digital dentistry](#) and CAD/CAM solutions.

The ACP is the only Prosthodontic specialty organization whose membership is based solely on education credentials. ACP members must be in or have completed an ADA-accredited advanced education program in Prosthodontics.
