Meeting Title:	Extraoral Maxillofacial Prosthesis Elastomers
Date:	March 19, 2018
Time:	2-3 PM
Location:	Hilton Marina Hotel, Rm. Grand Salon C
Chairman:	Lawrence Gettleman
Attendees:	Lawrence Gettleman, Linda Kronick, Yifeng Liao, Henry Lulik, Kent Ochiai, Jeffrey Platt, Amer Tiba

MEETING SUMMARY	
<ol style="list-style-type: none"> 1. Change our name to “Extraoral Maxillofacial Prosthetic Materials,” from “Extraoral Maxillofacial Prosthesis Elastomers.” 2. Scope: Materials for extraoral maxillofacial prostheses to restore missing anatomical defects, usually of the head and neck, for acquired and/or developmental defects that include auricular, orbital, nasal, mid-facial, somatic, or combinations. These prostheses are important for a patient’s appearance and psycho-social function. 3. Adopt tests for: <ol style="list-style-type: none"> a) Durometer Shore A hardness, from ISO 10139-2, Soft lining materials for removable dentures. Part 2: Materials for long-term use; b) Tear strength, from ADA Standard No. 99, Athletic Mouth Protectors and Materials; c) Determination of color stability, from ADA Standard No. 80, Determination of color stability. d) Peel strength, from ADA, ASTM or ISO standard methods; e) Glass transition temperature from ADA, ASTM or ISO standard methods; and f) Tensile set from ADA, ASTM or ISO standard methods.
